Respect the Salt!

- Lake Gairdner is a National Park
- What you bring in, you take out. Pick up your rubbish and take it with you.
- Do NOT discard your cigarette butts!
- No dogs permitted, especially on the lake.
- The use of glass materials on the lake surface must be minimized as the white surface renders glass objects almost invisible and consequently a serious danger if broken.
- All fuel and lubricants on the lake surface must be stored with a collapsible containment bund made of impervious oil resistant material, with sufficient capacity and strength to contain the volume of fuel stored.
- All vehicles, equipment, generators, batteries and tools must be located on impervious oil resistant tarpaulins to prevent oil damage to the salt surface.
- People staying at the campsites are asked to take extreme care of the sensitive saltbush and bluebush through the Western Myall Woodland.
- Periodic inspections of all land speed activities on the lake surface will be made by DWENR rangers to ensure all requirements are being met or complied with.

We ask everyone attending Speed Week to adhere to the points listed above to ensure we do not jeopardise future use of the site - thank you.
