

Safety Data Sheet

Conforms to OSHA CFR 29 1910.1200 and aligns to the United Nations Globally Harmonized System
Conforms to The United Nations Regulation Globally Harmonized System
Conforms to Regulation (EC) No 1272/2008 and aligns to the United Nations Globally Harmonized System
Conforms to the Australian Preparation of Safety Data Sheets for Hazardous Chemicals under section 274 of
the Work Health and Safety Act

Section 1 - Chemical Product and Company Identification

1.1 Product Name: PSX-AU
1.2 VP Racing Fuels, Inc., 7124 Richter Road, Elmendorf, TX 78112, 210.635.7744
1.3 Recommended Use: Racing Fuel

1.4 RESTRICTIONS on USE THIS FUEL IS FOR RACING VEHICLE USE ONLY!
NOT LEGAL FOR STREET DRIVEN MOTOR VEHICLE

1.5 Emergency Telephone: CHEMTREC 800-424-9300
International Emergency Telephone Number: +1-703-527-3887

1.6 See Section 16.3 for CHEMTRC in Country Emergency Numbers

1.7 Supplier: VP Racing Fuels Pty Ltd, Unit 24 85-115 Alfred Road, Chipping Norton, NSW 2170, Australia 02 9723 4233, Emergency Telephone: 0421 116 838

Section 2 - Hazards Identification

2.1 GHS HAZARD

Hazard Classes
Highly Flammable liquid/vapor
Specific Target Organs toxicity single exposure
Specific Target Organs repeated exposure
Eye Irritation
Skin Irritation
Acute Toxicity (Oral)
Mutagenicity
Carcinogen
Reproductive Toxicity
Aspiration Hazard
Toxic to Aquatic Life long Lasting Effects

Hazard Categories
Category 2
Category 3
Category 1
Category 2B
Category 2
Category 4
Category 1B
Category 1B
Category 2
Category 1
Category 2

Page 1 of 6
2.2 Signal Word: Danger

2.3 Pictograms:
- Flame
- Health Hazard
- Irritant
- Aquatic Hazard

2.4 Hazard Statements

PHYSICAL HAZARDS:

HEALTH HAZARDS:
- H225: Highly flammable liquid and vapor
- H302: Harmful if swallowed
- H304: May be fatal if swallowed and enter the airway
- H315: Causes skin irritation
- H319: Causes serious eye irritation
- H336: May cause drowsiness or dizziness
- H340: May cause genetic defects
- H350: May cause cancer
- H361: Suspected of damaging fertility or the unborn child
- H372: Causes damage to organs

ENVIRONMENTAL HAZARDS:

PRECAUTIONARY STATEMENTS:
- H411: Toxic to aquatic life with long lasting effects
- P102: Keep out of reach of children
- P202: Do not handle until all safety precautions have been read and understood
- P210: Keep away from sparks and open flames - No smoking
- P260: Do not breathe vapors
- P280: Wear protective gloves, clothing and eye protection

RESPONSE STATEMENTS:
- P301 +310+ P331: IF SWALLOWED: USA Immediately call the National POISON CENTER at 800-222-1222. OUTSIDE USA immediately call poison center or doctor. DO NOT induce vomiting
- P303+P361+353: IF ON SKIN Take off immediately all contaminated clothing. Rinse skin with water
- P304+340: IF INHALED, Remove to fresh air and keep comfortable for breathing
- P305+P351: IF IN EYES rinse cautiously with water for at least 15 minutes
- P306+P361: IF ON CLOTHING, Take off contaminated clothing
PSX-AU

Conforms to OSHA CFR 29 1910.1200 and aligns to the United Nations Globally Harmonized System
Conforms to The United Nations Regulation Globally Harmonized System
Conforms to Regulation (EC) No 1272/2008 and aligns to the United Nations Globally Harmonized System
Conforms to the Australian Preparation of Safety Data Sheets for Hazardous Chemicals under section 274 of
the Work Health and Safety Act

P370: In case of fire use foam, carbon dioxide, dry
chemical to extinguish fire
P376: Stop leaks if safe to do so. See section 6 for proper
clean up

STORAGE STATEMENTS:
P403: Keep Cool Store in a well-ventilated place

DISPOSAL STATEMENTS:
P501: Dispose of content and/or container in
accordance with local, regional, national or
international regulations

2.5 Hazards not otherwise classified (HNOC) or not covered by GHS: Repeated exposure may cause
skin dryness or cracking.

Section 3 - Composition / Information on Ingredients

3.1

</tr>
</tbody>
</table>

NOTE: This blend contained ≤ 0.3% Tetraethyl plumb CAS Number 78-00-2. All the associated physical and health
hazards have been addressed in this SDS.

3.3 Trade Secret Provision and Chemical Concentration Disclosure: In accordance with OSHA and GHS
Regulations we have withheld specific percentages of the chemicals in this mixture. The chemical concentrations have
been disclosed as a blend and are applicable to the hazards as identified in this Safety Data Sheet

Section 4 - First Aid Measures

4.1 Eye: Contact with the eyes can cause serious irritation. Symptoms may include discomfort or pain and
redness. Severe overexposure can result in swelling of the conjunctiva along with tissue damage.

Eyes: Flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get
medical aid.

4.2 Skin: Prolonged and repeated liquid contact can cause defatting and drying of the skin and can lead to
irritation and/or dermatitis.

Skin: Flush skin with plenty of soap and water for at least 15 minutes while removing contaminated clothing and shoes.
Get medical aid immediately. Wash clothing before reuse.
4.3 Ingestion: Liquid ingestion can cause inebriation, headache, gastrointestinal pain, nausea, and vomiting leading to central nervous system depression. Aspiration of liquid into the lungs must be avoided as even small quantities in the lungs can produce chemical pneumonia, pulmonary edema and even death.

Ingestion: Do NOT induce vomiting. Get medical aid immediately.

4.4 Inhalation: Prolonged breathing of high vapor concentrations can produce headache, dizziness, nausea, and impaired vision. Excessive overexposure can cause central nervous system depression, loss of consciousness, liver damage and death resulting from respiratory failure.

Inhalation: Remove from exposure to fresh air immediately. If not breathing, give artificial respiration. If breathing is difficult and IF TRAINED, give oxygen. Get medical aid. Do NOT use mouth-to-mouth resuscitation without protection.

4.5 After first aid, get appropriate paramedic, or community medical support. The severity of outcome following ingestion may be more related to the time between ingestion and treatment, rather than the amount ingested. Therefore, there is a need for rapid treatment of any ingestion exposure.

4.6 Note to Physicians: If you determine that a medical emergency exists and the specific chemical identity is necessary for emergency or first-aid treatment we will immediately disclose the specific chemical identity. Call CHEMTREC 800-424-9300 or 703-527-3887. We will require a written statement of need and confidentiality agreement, in accordance with OSHA’s Trade Secret Regulations as soon as circumstances permit. In non-emergency situations, we will upon written request disclose a specific chemical identity.

Section 5 - Fire-Fighting Measures

5.1 General Fire Hazards
Use water to cool containers exposed to fire

5.2 Hazardous Combustion Products
Avoid fumes of burning product.

5.3 Extinguishing Media
Carbon dioxide, dry chemical, foam

5.4 Fire Fighting Equipment/Instructions
Fire fighters should wear full-face, self-contained breathing apparatus and impervious protective clothing. Fire fighters should avoid inhaling any combustion products.

Section 6 - Accidental Release Measures

6.1 Spill/Leak Procedures: Ventilate area highly flammable. Spillages of liquid product will create a fire hazard and may form an explosive atmosphere. Keep all sources of ignition away from the spill.

6.2 Spills: Avoid direct contact with material. Stop leak if without risk. Move containers from spill area. Prevent entry into sewers or waterways. Contain and collect spillage with non-combustible, absorbent material such as sand, earth, vermiculite or diatomaceous earth and place in a container for disposal.
Section 7 - Handling and Storage

7.1 Handling Precautions: Wash hands and exposed skin thoroughly after handling. Remove contaminated clothing and wash before reuse. Use with adequate ventilation. Avoid ingestion and contact with eyes, skin or clothing. Keep container tightly closed. Avoid inhalation.

7.2 Storage Requirements: Store in a tightly closed container in a cool, dry and well-ventilated area.

Section 8 - Exposure Controls / Personal Protection

8.1

<table>
<thead>
<tr>
<th>Chemical Names</th>
<th>ACGIH- TLV</th>
<th>OSHA - PEL</th>
</tr>
</thead>
<tbody>
<tr>
<td>Blend of Aliphatic and Aromatic Hydrocarbons C-2 to C-20</td>
<td>300 ppm TWA</td>
<td>300 ppm TWA</td>
</tr>
<tr>
<td>2-ME</td>
<td>0.1 ppm TWA</td>
<td>25 ppm TWA</td>
</tr>
<tr>
<td>2-Methoxy-2-methyl/propane</td>
<td>50 ppm TWA</td>
<td>50 ppm TWA</td>
</tr>
</tbody>
</table>

8.2 STEL = Short-term Exposure Limit.
ACGIH® = American Conference of Governmental Industrial Hygienists. TLV® = Threshold Limit Value.
OSHA = US Occupational Safety and Health Administration. PEL = Permissible Exposure Limits.
NOTE: TWA Means "TWA is the employee's average airborne exposure in any 8-hour work shift of a 40-hour work week which shall not be exceeded."

8.3 Ventilation: Provide general or local exhaust ventilation systems to maintain airborne concentrations below TLV/PELs. Local exhaust ventilation are preferred because it prevents contaminant dispersion into the work area by controlling it at its source.

8.4 Contaminated Equipment: Separate contaminated work clothes from street clothes and launder before reuse. Remove this material from your shoes and clean personal protective equipment.

8.5 Personal protective equipment

8.5.1 Respiratory protection
Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multi-purpose combination (US) or type AXBEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

8.5.2 Hand protection
Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique to avoid skin contact with this product. Dispose of contaminated gloves after use. Select gloves tested to the ANSI/ISEA 105-2011 or European EN374 Standard.
Full Contact: Nitrile rubber
Splash contact: Nitrile rubber
This recommendation is advisory only and must be evaluated by an industrial hygienist and safety officer familiar with the specific situation of anticipated use. It should not be construed as offering an approval for any specific use scenario.

8.5.3 Eye protection
Face shield and safety glasses Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

8.5.4 Skin and body protection
Impervious clothing, Flame retardant antistatic protective clothing, the type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.
PSX-AU
Conforms to OSHA CFR 29 1910.1200 and aligns to the United Nations Globally Harmonized System
Conforms to The United Nations Regulation Globally Harmonized System
Conforms to Regulation (EC) No 1272/2008 and aligns to the United Nations Globally Harmonized System
Conforms to the Australian Preparation of Safety Data Sheets for Hazardous Chemicals under section 274 of the Work Health and Safety Act

8.6 Protective Clothing Pictograms

Section 9 - Physical and Chemical Properties

9.1
Physical State: Liquid
Appearance: Clear
Odor: Aromatic Petroleum Odor
Vapor Pressure: Not Available
Vapor Density (Air=1): 3.9
Specific Gravity (H₂O=1): 0.86
Odor Threshold: Not Available
Flammability (solid, gas): Not applicable.
Evaporation rate: Not Available
Partition coefficient octanol/water: Not Available

Water Solubility: Insoluble
Flash Point: 10.4°F (-12°C)
Boiling Point/Range: 210°F (99°C)
Lower Explosive Limits (vol % in air): 1%
Upper Explosive Limits (vol % in air): 6%
Viscosity: Not Available
Autoignition Temperature: Not Available
Decomposition temperature: Not Available
pH: None

Section 10 - Stability and Reactivity

10.1 Stability: Stable under ordinary conditions of use and storage

10.2 Polymerization: Hazardous polymerization has not been reported

10.3 Chemical Incompatibilities: Strong oxidizing agents

10.4 Hazardous Decomposition Products: Combustion produces carbon monoxide and carbon dioxide

10.5 Conditions to Avoid: Avoid heat, sparks, open flames and other ignition sources

Section 11 - Toxicological Information

11.2 Route of Entry: Inhalation, Ingestion, Absorption, Skin and/or Eye Contact

11.3 Aspiration Hazard: May be fatal if swallowed and enters airways

11.4 Acute Toxicity: harmful if swallowed. OECD Guideline 401 Tests results found in the European Chemical Agency Data Base shows that components of this product to be Harmful Oral Toxicity.
11.5 Mutagenicity: OECD Guideline 476 Tests results found in the European Chemical Agency Data Base show components of this product to cause genetic defects.

11.6 Skin Corrosion/Irritation: Causes skin irritation. Repeated exposure may cause skin dryness or cracking.

11.7 Serious Eye Damage/Irritation: Causes eye irritation.

11.8 Specific Target Organ Toxicity (Single Exposure): May cause drowsiness and dizziness.

11.9 Reproductive toxicity: OECD Guideline 421 Tests results found in the European Chemical Agency Data Base show components of this product to cause damage to fertility or the unborn child.

11.10 Specific Target Organ Toxicity (Repeated Exposure): Contains material which may cause damage to the following organs: kidneys, lungs, liver, upper respiratory tract, skin, eyes, central nervous system (CNS).

11.11 Signs and Symptoms: Contains material which may cause damage to the following organs: Eyes, Kidney, Liver, Heart, Central nervous system. Effects due to ingestion may include: Headache, Dizziness, Drowsiness, Metabolic Acidosis, Coma, Seizures. Symptoms may be delayed.

11.12 Carcinogenicity: OECD Guideline 453 Tests results found in the European Chemical Agency Data Base shows that components of this product to cause cancer.

<td>Not listed</td>
<td>Confirmed animal with unknown relevance to humans</td>
<td>Not listed</td>
<td>Not listed</td>
</tr>
</tbody>
</table>

11.12.1 2-Methoxy-2-methylpropane should be considered a "potential human carcinogen" due to an increase in leydig interstitial cell tumors of testes in male rats and an increase in lymphomas, leukemias, and uterine sarcomas in female rats. In another unpublished study 2-Methoxy-2-methylpropane was shown to be carcinogenic due to "increased incidence of a rare type of kidney tumor" in male rats and an "increase in the incidence of hepatocellular adenomas" in female mice.

Toxicity: OECD Guideline 204 Test results found in the European Chemical Agency Data Base show components of this product to cause long-term toxicity to fish.
12.2 Mobility: Floats on water

12.3 Persistence/degradability: No date available on this product

12.4 Bioaccumulation: No date available on this product

12.5 Other adverse effects: No date available on this product

Section 13 - Disposal Considerations

13.1 Disposal: DO NOT REUSE EMPTY CONTAINER! Container should be completely emptied prior to discard. Container with residues should be considered to be hazardous wastes. Contact a licensed contractor for detailed recommendations. Follow applicable federal, state, and local regulations.

Section 14 - Transport Information

4.1 DOT Transport Information

ID No.: UN 1203
Shipping Name: Gasoline
Hazard Class: 3
Packing Group: II
Label: Flammable
Placard: Flammable
Marking: MARINE POLLUTANT 2, 2, 4-Trimethylpentane when shipping ground greater than 119 gallons single container or any quantity by water

14.2 TDG Canadian Transport Information

ID No.: UN 1203
Shipping Name: Gasoline
Hazard Class: 3
Packing Group: II
Label: Flammable
Placard: Flammable
Marking: MARINE POLLUTANT 2, 2, 4-Trimethylpentane not regulated if shipped by road or rail
PSX-AU
Conforms to OSHA CFR 29 1910.1200 and aligns to the United Nations Globally Harmonized System
Conforms to The United Nations Regulation Globally Harmonized System
Conforms to Regulation (EC) No 1272/2008 and aligns to the United Nations Globally Harmonized System
Conforms to the Australian Preparation of Safety Data Sheets for Hazardous Chemicals under section 274 of the Work Health and Safety Act

14.3 IMDG Transport Information

ID No.: UN 1203
Shipping Name: GASOLINE
Hazard Class: 3
Packing Group: II
Flash Point: (-12 °C c.c.)
EmS Number: F-E, S-E
Label: Flammable
Placard: Flammable
Marking: Marine Pollutant 2, 2, 4-Trimethylpentane

14.4 ADR/RID Transport Information

ID No.: UN 1203
Shipping Name: Gasoline
Hazard Class: 3
Packing Group: II
Label: Flammable
Placard: Flammable
Marking: Marine 2, 2, 4-Trimethylpentane
Classification Code: F1

14.5 Australian Dangerous Goods Transport Information

ID No.: ID No.: UN1203
Shipping Name: Gasoline
Hazard Class: 3
Packing Group: II
Label: Flammable
Placard: Flammable
Marking: Marine Pollutant 2, 2, 4-Trimethylpentane
Marking: MARINE POLLUTANT The marine pollutant mark is only applicable for packages containing more than 5 liter for liquids.
PSX-AU
Conforms to OSHA CFR 29 1910.1200 and aligns to the United Nations Globally Harmonized System
Conforms to The United Nations Regulation Globally Harmonized System
Conforms to Regulation (EC) No 1272/2008 and aligns to the United Nations Globally Harmonized System
Conforms to the Australian Preparation of Safety Data Sheets for Hazardous Chemicals under section 274 of
the Work Health and Safety Act

15.1 US Regulations

US. Toxic Substances Control Act: All components of this product are on the TSCA Inventory or are exempt from
TSCA Inventory requirements under 40 CFR 720.30

CERCLA Hazardous Substances and corresponding RQs: Phenylmethane 1000lbs, 2, 2, 4-Trimethylpentane
1000lbs
SARA Community Right-to-Know Program: Phenylmethane, 2, 2, 4-Trimethylpentane, 2-ME, 2-Methoxy-2-
methylpropane

Clean Water Act: Phenylmethane, 2-Methoxy-2-methylpropane

Clean Air Act: None

OSHA: All ingredients are regulated by 1910.1200

State Regulations
California prop. 65: Phenylmethane Reproductive, Carcinol Cancer

Chemicals on the following State Right to Know Lists:

Massachusetts: All components of this product are on the Massachusetts Inventory or are exempt from Inventory
requirements.

New Jersey All components of this product are on the New Jersey inventory or are exempt from Inventory
requirements.

Pennsylvania: All components of this product are on the Pennsylvania Inventory or are exempt from Inventory
requirements.

15.2 Canadian Regulation:

The following substances are specified on the public Portion of the Domestic Substances List (DSL): All
substances contained in this product are listed on the Canadian Domestic Substances List (DSL) or are not required to
be listed.

15.3 Europe Regulations

Europe inventory:
All substances contained in this product are listed on the EU directives or are not required to be listed.

International Regulations:
Australian Inventory of Chemical Substance: All components of this product are on the Inventory or are exempt from
Inventory requirements

National Existing Chemical Inventory in Taiwan: All components of this product are on Inventory or are exempt from
Inventory requirements

Philippine Inventory of Chemicals and Chemical Substances All components of this product are on the Inventory or
are exempt from Inventory requirements

China Existing Chemical Inventory: All components of this product are on the Inventory or are exempt from Inventory
requirements
